## Objective

Innovative and dedicated professional with a background in software development and data analysis, seeking to transition into the role of AI Engineer. Eager to leverage programming skills and analytical prowess to contribute to cutting-edge AI projects.

---

## Education

Bachelor of Science in Computer Science  
University of Colorado Boulder, CO  
Graduated: May 2021

---

## Experience

### Software Developer

Tech Innovations Inc., Denver, CO  
June 2021 - Present

- Collaborated with a team of developers to enhance software performance and user experience.
- Conducted data analysis to identify trends and improve system efficiency.
- Assisted in the development of machine learning models to optimize product recommendations.

### Data Analyst Intern

GreenTech Solutions, Boulder, CO  
January 2020 - May 2020

- Analyzed large datasets to generate actionable insights for business strategy.
  - Developed Python scripts to automate data collection and processing tasks.
  - Presented findings to senior management, contributing to decision-making processes.
- 

## Skills

- Proficient in Python, Java, and SQL
  - Experience with machine learning libraries such as TensorFlow and PyTorch
  - Strong analytical and problem-solving skills
  - Familiar with data visualization tools like Tableau and Power BI
  - Basic understanding of neural networks and deep learning concepts
- 

## Projects

- **Sentiment Analysis Tool:** Developed a Python-based tool to analyze customer feedback and classify sentiments, improving customer service response strategies.
- **Automated Data Pipeline:** Designed and implemented an automated data pipeline to

streamline data processing, significantly reducing manual workload.

---

## **Certifications**

- Certified Data Analyst (CDA), Data Science Council of America, 2023
  - Python for Data Science, Coursera, 2022
-
